

ARE YOU READY FOR AN EMERGENCY?

As part of BCPOA's Mission—**Connect, Protect, and Enhance**—we're sharing updated emergency preparedness information with all homeowners. With expected increased wildfire risk this year, it's important every household stay informed, prepared, and connected to reliable alert systems.

These resources will help you and your guests quickly access critical information, understand how alerts are delivered, and take simple steps now that can make a meaningful difference in an emergency.

*Please review, **register for alerts via the QR codes**, and keep this information accessible — being prepared protects your home and our community.*

 <p>EC Alerts</p>	<p>EC Alert is the platform used to send emergency notifications directly to the public, such as evacuation orders, fire updates, and road closures.</p>	 <p>Genasys Protect</p> <p>Genasys Protect complements EC Alert by providing real-time emergency notifications locally and in other participating areas - making it especially useful for travelers.</p>
 <p>Community Connect</p>	<p>Community Connect is used by the Eagle River Fire Protection District to access emergency contact information if an incident occurs at your home. Please provide contact information for you and property manager, if applicable.</p>	 <p>Everbridge App</p> <p>Everbridge app sends Eagle County emergency alerts (evacuations, routes, muster points, and all-clear). Download, enable push notifications, search "Eagle County" under "Find an Organization," select "Public Alerts," and finish setup.</p>

FIRE MITIGATION

Fire mitigation inspections are conducted on a rolling three-year cycle. See bcpoa.com/resources/ for a map and schedule of neighborhood fire risk inspections. For immediate concerns go to:

realfire.net or contact **Micah Rader**, Area Wildfire Manager, 970-390-2290, mrader@eagleriverfire.org
