Creekside Park Construction Project Update: May 2024

The project broke ground in April and is well into a pre-construction phase. This includes placement of construction fencing, demolition, and work on snowmaking infrastructure improvements in the lower park to ensure a quality winter skiway experience for years to come.

We have been holding weekly on-site community update meetings each Thursday morning at 10am in Creekside Park ([click here for exact meeting location](#)), anyone who is interested about what to expect each week from a construction standpoint is welcome to attend!

Reminders and updates about the project:

- Construction in both the lower and upper park will be taking place in the park until November.
- The primary pedestrian path from the lower park to the upper park will be kept open as much as possible, with only occasional closures of the path anticipated.
- Planned hours of construction in May are Monday through Friday 7:30am – 6:30pm. If necessary for our timeline, Saturday work may occur from 8:00am to 5:30pm.

The project plans include replacement of all picnic tables in the park and as a result, we have several existing **picnic tables in good shape that are available for free** if any properties or community members are interested, on a first-come, first-served basis. Please contact Alison Buhler at Abuhler@vailresorts.com if you are interested.

A description of the project and artistic renderings of the project can be found on our website www.beavercreekresortcompany.com/inspire.

Please feel free to contact Clint Huber, Director of Economic Development at chuber@bcresortco.com with any questions.
